PROOFS: PRE-PRODUCTION SAMPLE REQUIRED.

The sample requirement for this contract is not less than 2 printed samples. Each sample must be constructed as specified using the form, ink, equipment, binding, and methods of production which will be used in producing the finished product. Paper used for samples must be of the size, kind, and quality the contractor will furnish. Samples will be inspected for halftone and print quality from the government-furnished sample and must comply with the specifications as to kind and quality of materials,

quality of reproduction, and satisfactory processing on the machine indicated.

Prior to the commencement of production of the contract production quantity, the contractor shall submit 2 samples to the address indicated under Distribution.

The package must be marked PRE-PRODUCTION SAMPLES DO NOT DELAY; and must include the GPO jacket #, dept. req # & form title.

The samples must arrive not later than May 6, 2009, to allow Government testing of the samples and production and shipment of the final product. The Government will approve, conditionally approve, or disapprove the samples within 3 workdays of the receipt thereof. Approval or conditional approval shall not relieve the contractor from complying with the specifications and all other terms and conditions of the contract. A conditional approval shall state any further action required by the contractor. A notice of disapproval shall state the reasons therefor.

If the samples are disapproved by the Government, the Government at its option may require the contractor to submit additional samples for inspection and test, in the time and under the terms and conditions specified in the notice of rejection. Such additional samples shall be furnished, and necessary changes made, at no additional cost to the Government, and with no extension in the shipping schedule. The Government will require the time specified above to inspect and test any additional samples required.

In the event the samples are disapproved by the Government, the contractor shall be deemed to have failed to make delivery within the meaning of the default clause in which event this contract shall be subject to termination for default, provided however, that the failure of the Government to terminate the contract for default in such event shall not relieve the contractor of the responsibility to deliver the contract quantities in accordance with the shipping schedule.

In the event the Government fails to approve, conditionally approve, or disapprove the samples within the time specified, the Contracting Officer shall automatically extend the shipping schedule in accordance with article 12 Notice of Compliance with Schedules of contract clauses in GPO Contract Terms (Pub. 310.2, effective December 1, 1987 (Rev. 5-99)).

Manufacture of the final product prior to approval of the sample submitted is at the contractor's risk. Samples will not be returned to the contractor. All costs, including the costs of all samples shall be included in the contract price for the production quantity. All samples shall be manufactured at the facilities in which the contract production quantities are to be manufactured.
